# **1. The Rise-Decay Civilisational Index**

This is the Canon's primary diagnostic, rating a society across 10
cultural indicators.

## The Ten Indicators

Score each from 1 (critical decay) to 10 (civilisational rise):
```

1. **Moral Vision** - clarity of right/wrong in public life
2. **Fatherhood & Generational Continuity**
3. **Shared Cultural Honour**
4. **Institutional Discipline**
5. **Truth Commitment**
6. **Economic Productivity**
7. **Boundary Strength** (moral + cultural)
8. **Cultural Memory & Identity**
9. **Heroic Leadership**
10. **Community Trust & Cohesion**

### **Interpretation**

- **80-100** → Civilisational ascent
- **60-79** → Stable but vulnerable
- **40-59** → Drift and soft decay
- **20-39** → Advanced decadence
- **00-19** → Pre-collapse or collapse

<Callout type="warning">

If the indicators "Fatherhood," "Truth," or "Cultural Memory" fall below 4, the entire civilisational structure becomes unstable.

## **2. The Drift Spectrum**

A rapid assessment tool to detect early cultural drift across five domains:

### **Domains**

- **Purpose Drift**
- **Moral Drift**
- **Institutional Drift**
- **Identity Drift**
- **Leadership Drift**

Score each domain from **A** to **E**:

- **A** - Stable (anchored and aligned)
- **B** - Mild drift
- **C** - Noticeable misalignment
- **D** - Advanced drift
- **E** - Collapse trajectory

### **Intervention Threshold**

If **two or more domains score D or E**, drift has become **systemic**.

<Quote>

Drift is rarely dramatic. It is silent, cumulative, and ultimately devastating.

## **3. Cultural Softness Scale (CSS-12)**

A 12-item behavioural test for identifying softness-driven decay.

Rate each on a 1-5 scale (1 = absent, 5 = strongly present):

2. Avoidance of responsibility
3. Consumerism over contribution
4. Emotional fragility
5. Entitlement
6. Instant gratification norms
7. Loss of work ethic
8. Low resilience to discomfort
9. Dependency
10. admiration of indulgence
11. Weakening of discipline
12. Decline in honour and duty

### ### \*\*Scoring\*\*

- \*\*12-24\*\* → Strong culture
- \*\*25-40\*\* → Softening
