

The Legacy Canvas

A 4D legacy model: financial, intellectual, relational, spiritual—measured across time horizons.

TIER: BOARD / FOUNDER / HOUSEHOLD

TAG: STEWARDSHIP • SUCCESSION • DURABILITY

EXECUTIVE SUMMARY

- Legacy is not a speech; it is a system built in time.
- Most leaders track only financial legacy and then act surprised when everything else collapses.
- Durability requires multi-dimensional measurement and leading indicators.

OPERATING LOGIC

Why four dimensions

Money without wisdom is waste. Wisdom without relationships is sterile. Relationships without formation decay.

Why time horizons matter

3 years measures execution. 10 years measures institution-building. 25 years measures what outlive you.

Why leading indicators

Collapse shows up late. Leading indicators surface drift early.
