## EXECUTIVE SUMMARY

- Legacy is not a speech; it is a system built in time.
- Most leaders track only financial legacy and then act surprised when everything else collapses.
- Durability requires multi-dimensional measurement and leading indicators.

## OPERATING LOGIC

### Why four dimensions

Money without wisdom is waste.  
Wisdom without relationships is  
sterile. Relationships without for-  
mation decay.

### Why time horizons matter

3 years measures execution. 10  
years measures institution-build-  
ing. 25 years measures what out-  
live you.

### Why leading indicators

Collapse shows up late. Leading  
indicators surface drift early.
