import * as React from "react";

```
<>
  ## First hour: who calls whom

  - **Coordinator:** starts the tree, tracks acknowledgements, closes the loop.
  - **Pastoral:** contacts spouse/family if needed.
  - **Practical:** transport, kids, meals, locks, cash.

  ### Contacts (fill these)

  - Coordinator: [Name] 07...
  - Pastoral: [Name] 07...
  - Practical: [Name] 07...
  - Backup: [Name] 07...

  ### Script (SMS call)
```

<blockquote> **BRIEF:** One line facts. </blockquote>

<blockquote> **POINT:** Immediate need. </blockquote>

<blockquote> **FORWARD:** Where to meet / what to bring / ETA. </blockquote>

```
  **Example:** Brief: Tom's car accident, A&E St. Mary's. Point: Kids need pickup. Forward: Mark grabs kids 3:45, Sarah meets
</>
```
