Institutional [Integrity](/lexicon/integrity) Audit

{"[Integrity](/vault/lexicon/integrity) is not a moral feeling; it is structural wholeness. An institution has integrity when its inner workings match its outer claims."}

I. THE AUDIT PILLARS

1. Document [Integrity](/vault/lexicon/integrity)

- **The Constitution**: Is there a written document defining the "Why" and the "How"?
- **The Lexicon**: Does the organization use a shared language for complex concepts?
- **The Archive**: Is institutional memory preserved for the next generation of leaders?

2. Operational [Integrity](/vault/lexicon/integrity)

INSTITUT

Institutional Integrity Audit

- The Definition of Done**: Is there a clear standard for "finished" work?
- The Feedback Loop**: Are post-mortems conducted without blame to prevent repeat failures?
- The Zero-Trust Layer**: Are security and access handled via "Least Privilege" protocols?

II. STRATEGIC RECOMMENDATION

If the Audit reveals a score below 70%, **Freeze Growth**. Scaling a broken system only scales the chaos. Fix the foundation before adding weight.

Version: 1.2.0 | **Institutional ID**: CB-INT-AUDIT-078 **Part of the Abraham of London Portfolio**.
