Institutional Integrity Audit

{"Integrity is not a moral feeling; it is structural wholeness. An institution has integrity when its inner workings match its outer claims."}

I. THE AUDIT PILLARS

1. Document Integrity

- The Constitution: Is there a written document defining the "Why" and the "How"?
- The Lexicon: Does the organization use a shared language for complex concepts?
- The Archive: Is institutional memory preserved for the next generation of leaders?

2. Operational Integrity

- The Definition of Done: Is there a clear standard for "finished" work?
- The Feedback Loop: Are post-mortems conducted without blame to prevent repeat failures?
- The Zero-Trust Layer: Are security and access handled via "Least Privilege" protocols?

II. STRATEGIC RECOMMENDATION

If the Audit reveals a score below 70%, Freeze Growth. Scaling a broken system only scales the chaos. Fix the foundation before adding weight.
