FOLIO · RESOURCES/STRATEGIC-FRAMEWORKS

Strategic Frameworks

A curated operating library of strategic frameworks built for governance, clarity, and durable execution.

CONTROL METADATA

REFERENCE	resources/strategic-frameworks
ISSUE DATE	21 March 2026
VERSION	1.0
TRANSMISSION ID	CD73-DF3F-C3E4
CIRCULATION	Controlled distribution within portfolio

INSTITUTIONAL NOTICE

This folio forms part of a governed portfolio. Circulation, derivative use, extraction, and onward handling remain subject to transmission trace and portfolio control standards.

Verification

Strategic Frameworks

This is the library.

A disciplined collection of decision systems designed for leaders operating under scrutiny — where clarity must survive pressure.

What this is

A set of **board-grade frameworks** with:

- Decision rights** (who owns what)
- Inputs** (what must be true before deciding)
- Outputs** (what the board expects to see)
- Failure modes** (how teams misuse strategy)

Who this is for

- Founders carrying irreversible decisions
- Directors governing legitimacy and risk
- Operators building cadence and accountability
- Households building order that survives stress

How to use this library

- Start with **v4** (canonical current system)
- Apply the **Decision Hygiene** workflow
- Produce an **artifact** (memo, decision log, cadence plan)
- Review and iterate on cadence

Canonical release

- Current:** **Strategic Frameworks v4**

Read: **[Strategic Frameworks v4](/resources/strategic-frameworks/v4)**

Quick-start: Decision Hygiene (Board Standard)

Strategic Frameworks

Inputs (required)

- Objective (one sentence)
- Constraints (cash, time, people, compliance)
- Options (max 3)
- Risks (top 5, with mitigation)
- Authority (who decides, who advises)

Process (45–90 minutes)

- Frame the decision (what is truly being decided?)
- Score options (impact, risk, reversibility, time-to-value)
- Decide (record owner + rationale)
- Commit to next actions (with dates)

Outputs (what the board expects)

- 1-page decision memo
- Decision log entry
- Risk register delta
- KPI impact statement
- Governance implication note

Deployable artifacts

Use these immediately. They are designed to match the workflows inside v4.

- **Board Decision Log Template**

Download(/downloads/board-decision-log-template)

- **Operating Cadence Pack**

Download(/downloads/operating-cadence-pack)

- **Canon Council Table Agenda**

Read(/resources/canon-council-table-agenda)

INSTITUTIONAL BRIEF

PUBLIC

RESOURCES/STRATEGIC-FRAMEWORKS

Strategic Frameworks

- **Strategy Room Intake (for high-stakes decisions)**

'**Read](/resources/strategy-room-intake)**

Standards (non-negotiable)

Strategy fails when it becomes performance. This library is built to prevent that.

- **If it cannot be executed, it is not strategy.**
- **If it cannot be audited, it is not governance.**
- **If it cannot be explained in plain speech, it is not clarity.**

What's next

This library will expand, but the spine stays stable:

- Governance Ladder (authority, escalation, accountability)
- Pressure Protocol (how leaders decide under stress)
- Institutional Design Kit (structures that survive personality)
- Integrity Moat Model (trust as competitive advantage)

ATTESTATION

Issued under the authority of The Architect.
